ICDL(International Computer Driving Licence)

---

## PROJECTS

### Websites:

- **PORTFOLIO WEBSITE:** A personal portfolio built with JavaScript, React.js, Tailwind CSS, and Framer Motion was deployed on Vercel.
- **ELEVATE CREATIONS AGENCY:** This IT consultancy website, built in NextJS, includes SEO optimization and Google indexing, a tag manager, and analytics.
- **LEARNING MANAGEMENT SYSTEM:** The Learning Management System (LMS) a web-based platform designed for online education and training. It provides a seamless learning experience with features like course management, user authentication, progress tracking, and interactive content. Built for scalability and ease of use, the LMS supports instructors in creating, managing, and delivering courses while enabling students to engage with educational materials effectively.
- **AI-IMAGE GEN-** an advanced image generation tool that leverages artificial intelligence to create high-quality visuals based on user input.
- **CAR-RENTAL SYSTEM** - A dynamic and user-friendly Car Rental System built using PHP and MySQL, designed to streamline the process of renting vehicles online
